RECOMMENDATION D. "The Planning and Coordinating Staff should be brought up to strength, preferably with an employee who has had broad experience in both Field and Headquarters assignments."

OO COMMENT: We believe that the DCI should take no action on this Recommendation. This is completely an internal matter. At present, our Planning and Coordinating Staff consists of one officer. It might be advisable to add one more officer when one with the proper background can be found. However, in principle, this Office disapproves of large staffs. Further, any addition to the Planning and Coordinating Staff would be at the expense of our operating Divisions. These Divisions have been asked to absorb a cut of ████ ceiling positions and are presently in the process of "attriting" down to their new ceiling.
